

聯合國永續發展目標（SDGs）與其關鍵字

	SDGs 中文	SDGs English	SDGs 關鍵字
SDG1	無貧窮	No Poverty	extreme poverty, poverty alleviation, poverty eradication, poverty reduction, distributional effect, development aid, financial empowerment, social protection, microfinanc*, safety nets, economic resources, welfare,
SDG2	零饑餓	Zero Hunger	malnutrition, undernourish*, agricultural productivity, food productivity, food security, food insecurity, food nutrition improvement, genetically modified food, agricultural innovation, food security, food supply chain, food banks
SDG3	良好健康與福祉	Good Health and Wellbeing	health*, disease*, illness*, medicine*, mortality, child abuse, child neglect, chronic respiratory diseases, infectious diseases, sexually-transmitted diseases, communicable diseases, health, substance addiction, mental health, healthy lifestyle, life expectancy, health policy, health system, psychological wellbeing, public health
SDG4	優質教育	Quality Education	inclusive education, educational inequality, education quality, educational enrollment, adult literacy, educational environment, educational access, teacher training, early childhood education, basic education, affordable education, school safety, learning opportunities, equal opportunities, discriminatory, special education needs, ethnic disparities, racial disparities, education dropouts, global citizenship, sustainable development education, education policy, international education, education reform
SDG5	性別平等	Gender Equality	gender inequality, gender equality, employment equity, gender wage gap, female empowerment, domestic violence, female leadership, feminism, gender injustices, gender discrimination, female entrepreneurship

聯合國永續發展目標（SDGs）與其關鍵字

SDG6	清潔飲水和衛生設施	Clean Water and Sanitation	water access, drinking water, sanitation & hygiene, water availability, water footprint, water-use efficiency, water supplies, water management, water ecotoxicology, pollution, contaminant*, freshwater, water security, water shortage, waste water, water conservation, pollution remediation, groundwater, water scarcity, blue water, green water, grey water, black water
SDG7	經濟適用的清潔能源	Affordable and Clean Energy	energy efficiency, energy consumption, energy transition, clean energy technology, energy equity, energy justice, energy poverty, energy policy, energy security, renewable* , smart micro-grid, smart grid, smart meters, affordable electricity, electricity consumption, reliable electricity, clean fuel, fuel poverty, photochemistry, renewable energy, photovoltaic, photocatalytic water splitting, hydrogen production, water splitting, lithium-ion batteries, heat network, district heat, rural electrification, energy ladder, energy access, energy conservation, low-carbon society, hybrid renewable energy systems, fuel switching
SDG8	優質工作和經濟增長	Decent Work and Economic Growth	economic growth, economic development policy, employment policy, sustainable growth, economic globalization, economic productivity, microfinance*, microcredit*, equal income, equal wages, decent jobs, quality jobs, job creation, full employment, employment protection, informal employment, precarious employment, unemployment, safe working environment, labor market institutions, forced labor, child labor, labor rights, modern slavery, global jobs, living wage, minimum wage, circular economy, inclusive economy, Foreign Development Investment, Aid for Trade, trade unions, working poor, economic diversification, economic decoupling, labor market disparities, sustainable tourism, community-based tourism, sustainable tourism policy, financial access, financial inclusion, access to banking

聯合國永續發展目標（SDGs）與其關鍵字

SDG9	產業、創新和基礎設施	Industry, Innovation and Infrastructure	industrial growth, industrial diversification, infrastructural development, infrastructure investment, public infrastructure, industrial emissions, mitigation, industrial waste management, traffic congestion, microenterprise*, small enterprises, medium enterprises, small entrepreneurs, medium entrepreneurs, value chain management, broadband access, developing countries, manufacturing innovation, manufacturing investment, sustainable transportation, accessible transportation, transportation services, inclusive transportation, R&D investment, green products, sustainable manufacturing, industry, closed loop supply chain, industrial innovation , process innovation, product innovation, inclusive innovation
SDG10	減少不平等	Reduced Inequalities	equality, inequality, economic reform policy, political inclusion, social protection policies, immigration, foreign direct investment, development gaps, migrant remittance, responsible migration, migration policies, north-south divide, tariffs, zero-tariff, duty-free access, social exclusion, economic marginalization, income inequality, discriminatory law*, discriminatory policies, economic empowerment, economic transformation, global market
SDG11	可持續城市和社區	Sustainable Cities and Communities	sustainable cities, human settlements, urban, metropoli*, town*, municipal*, gentrification, congestion, transportation, public transport, housing, slum*, sendai framework, Disaster Risk Reduction, DRR, smart cities, resilient buildings, sustainable buildings, building design, buildings design, urbanization, zero energy buildings, basic services, citizen participation, collaborative planning, participatory planning, inclusiveness, cultural heritage, natural heritage, UNESCO, disaster, ecological footprint, environmental footprint, waste, pollution, recycling, circular economy, air quality, green spaces, nature inclusive, nature inclusive buildings

聯合國永續發展目標（SDGs）與其關鍵字

SDG12	負責任消費和生產	Responsible Consumption and Production	environmental pollution, hazardous waste, hazardous chemicals, toxic chemicals, chemical pollution, ozone depletion, pesticide pollution, pesticide stress, pesticide reduction, life cycle assessment, life cycle analysis, low carbon economy, environmental footprint, material footprint, harvest efficiency, solid waste, waste generation, corporate social responsibility, corporate sustainability, consumer behaviors, waste recycling, resource recycling, resource reuse, biobased economy, zero waste, sustainability label, global resource extraction, material flow accounting, societal metabolism, food spill, resource spill, resource efficiency, sustainable food consumption, green consumption, sustainable supply chain, circular economy, cradle to cradle, sustainable procurement, sustainable tourism, fossil-fuel subsidies, fossil-fuel expenditure, consumption, production
SDG13	氣候行動	Climate Action	climate action, climate adaptation, climate change, climate capitalism, ipcc, climate effect, climate equity, climate feedback, climate finance, climate change financing, climate forcing, climate governance, climate impact, climate investment, climate justice, climate mitigation, climate models, climate policies, climate risks, climate services, climate predictions, climate signals, climate tipping point, climate variations, eco-climatology, Green Climate Fund, regional climates, urban climates, climate adaptive management, climate awareness, climate bioeconomy, carbon , disaster risk reduction, environmental education, sustainable development education, emission* , land use, megacit*, anthropocene, atmospher*, clean development mechanism, glacier retreat, warming, greenhouse, ice-ocean interactions, nitrogen cycles, ocean acidification, radiative forcing, sea ice, sea levels, thermal expansion, unfccc, ozone

聯合國永續發展目標（SDGs）與其關鍵字

SDG14	水下生物	Life below Water	marine, ocean, sea, coast*, mangrove, water cycles, biogeochemical cycles, oceanic circulation models, ice-ocean, eutrophication*, coral bleach, coastal management, coastal habitats, marine debris, ocean acidification, acidification, seawater, fisheries, overfishing, sustainable yield, marine protected areas, marine conservation, community based conservation, marine land slide, marine pollution, nutrient runoff, coastal ecotourism, destructive fishing, local fisheries, artisanal fishers, fisheries rights, species richness, traditional ecological knowledge, small Island development states, marine quota, marine economy, marine policy
SDG15	陸地生物	Life on Land	terrestrial, land, inland, freshwater, biodiversity*, species richness, bioeconomy*, biological production, deforestation*, desertification*, earth system, ecological resilience, ecosystem*, trophic cascade, trophic level, trophic web, threatened species, endangered species, extinction risks, poaching*, wildlife products, wildlife traffic, wildlife markets, invasive species, alien species, land uses, land degradation, soil degradation, LULUCF, *forest*, land conservation, wetland*, mountain*, dryland*, mountainous cover, protected areas, REDD, forest management, silviculture, timber harvest, illegal logging, slash-and-burn, fire-fallow cultivation, tree cover, soil restoration, land restoration, drought, sustainable land management, mountain vegetation, habitat restoration, Red List species, Red List Index, extinction wave, habitat fragmentation, habitat loss, Nagoya Protocol on Access to Genetic Resources, genetic resources, biological invasion, biodiversity-inclusive, forest stewardship council, rainforest alliance, forest certification, forest auditing, ecotourism, community based conservation, human-wildlife conflict

聯合國永續發展目標（SDGs）與其關鍵字

SDG16	和平、正義與強大機構	Peace, Justice and Strong Institutions	actual innocence, false confession, armed conflicts, civil conflicts, war, warfare, democracy, Geneva Convention, treaty, peace, peacekeeping, corruption, institution, public official, government, bribery, conflict, crimes, criminal, democratic deficit, democratization, conflict, decision-making, society, politics, financial aid, ethnic conflicts, exoneration, genocid*, homicid*, murder*, human trafficking, criminal justice system, arbitrary justice, refugee*, terroris*, violence, effective rule of law, arms flow, transparent institutions, good governance, legal identity for all, freedom of information, human rights institution, human rights activists, fundamental freedoms, violent conflicts, peaceful society, effective institutions, accountable institutions, inclusive institutions, child abuse, arbitrary detention, unsentenced detention, judicial system, criminal tribunal, inclusive societies, responsive institutions, fair society, responsive institution, legal remedies, independent judiciary, separation of powers, extremism, war crime, peaceful society, organized crime, illicit transfer, illicit money, arms trafficking, cybercrime, insurgency, democratic institution, political instability, political decision-making, Aarhus Convention, press freedom, freedom of speech
SDG17	促進目標實現的夥伴關係	Partnership for the Goals	此項無關鍵字

*註：以上關鍵字的變化型，例如兩字用-(dash)合起來或分開的皆可用，單複數型(有無-s)也可使用。
